FREE RADIO LICENSES

The Dominion Department of Transport has agreed to issue a free receiving license, through the provincial Department of Education, to any school supported by public funds which uses radio for educational purposes. These licenses expire on March 31st of each year, and must be renewed annually. Application forms for the licenses may be secured through the local school inspector, or directly from the Department of Education, Parliament Buildings, Toronto.

SUGGESTIONS FOR UTILIZATION OF THE BROADCASTS

Have a radio expert check your receiving set before the series begins.

BEFORE THE BROADCAST:

1. Prepare the students for profitable listening. This preparation should aim at stimulating interest and anticipation.
2. Test your radio for its most effective position in your classroom, and secure the best volume for easy and clear reception.
3. The title of the programme should be placed on the blackboard.
4. Tune in the station a few minutes before the broadcast is due to begin, then reduce the volume until the programme starts.
5. The classroom is considered to be preferable to the auditorium as the place to hear the programme.

AFTER THE BROADCAST:

1. Activities following the broadcast should relate to the content of the programme, and their nature will often be suggested by that content. Suggested activities may include: committee work; letter writing; diaries; story telling; related reading; related art work; map work; discussion.

2. Secure the class reaction to the broadcast immediately following the programme. It is desirable training for your class to learn to evaluate a broadcast.

3. Correlate films and slides from the Visual Education Library with the broadcast.

N.B.—Filmstrips may be secured from any of the dealers listed on pages 127-28 of the Visual Education Catalogue. Do not apply to the Visual Education Branch for filmstrips. Films and sets of slides bearing a code number may be secured from the Visual Education Library, 244 College Street, Toronto.

CURRENT EVENTS

Grade Levels—Grades V to VIII

Approximately ten minutes will be devoted to a review of current events. The series will be conducted by Mr. T. V. Dobson, a Toronto teacher w skilled in classroom use of current events. The purpose of these broadcasts is to train pupils in news selection, evaluation, and analysis. To do this, the students will be encouraged to bring to school worthwhile pictures of news events, and later to place these in a scrapbook accompanied by a short summary. To relate the news with the physical world, they will be asked to use their geography maps with the broadcasts. Labelled cardboard markers inserted at the maps of Canada, Ontario, the United States, and each of the continents will facilitate their finding of these maps.

It will be heard daily Mondays to Fridays at 10.15 a.m. from September 6 through to May 26.

SPECIAL SCHOOL MUSIC BROADCAST

In order to give parents, teachers and students an opportunity of sampling the excellent music work that is being done in Canadian schools today, we have arranged through the courtesy of Miss Gertrude McCance, Supervisor of School Broadcasts, Manitoba Department of Education, for a special pre-Christmas programme of school choral music to be given from Winnipeg on Friday, December 23rd. This broadcast will be heard in all parts of the country, at the time usually occupied by our National School Broadcasts.

The Christmas programme will be given by the Kelvin (Winnipeg) High School Choir, under the direction of Miss Gladys Anderson. The broadcast will originate in the Winnipeg studios of the CBC.
